## Many Prizes Given By Raymond Firms

Considerable interest has been maintained, or we should say was maintained in the various stores preceding Christmas, due to the prizes being distributed by the lucky ticket route on Christmas Eve, and for that matter a few days prior to that time.

Stone's Service Store gave away several Shirley Temple dolls the draws for these being made each day for about the week preceding Christmas. They were well scattered out. The Mercantile had a list of 50 prizes to distribute, which were drawn for Christmas Eve. J. W. Evans won the big prize, the radio, and three other prizes also went to the Evans family. Three prizes also went to various members of the Leo Wecker family. The others were scattered out one to a person to 43 other winners.

One or two turkeys were drawn for that day. Lucky Roi Stone winning one, and Paul Wooley winning one. There were also several quilts sold by the lucky ticket route during the week, and these made good Christmas presents in a number of homes. No wonder many people believe in Santa Claus.

L. Estrin shipped two cars of cattle out on Friday.

### BANK OF CANADA FIGURES

Ottawa, Dec. 26.—Dominion government deposits with the Bank of Canada during the week ended Dec. 24 showed an increase of \$1,752,962 compared with the previous week, according to the weekly statement of the bank issued today. Deposits by chartered banks in the same period decreased \$3,468,423.—Lethbridge Herald.

### LIBERTY MAGAZINE'S CANADIAN HALL OF FAME No. 20

Rejection slips mean nothing in the life of Mazo de la Roche of Jaina fame and Canada's first ranking woman novelist. Two years after her first story illumined the high-brow pages of the Atlantic Monthly, she won that publication's \$10,000 plum for the best "first novel" submitted in the year.

She says it "was the love-letter the editor wrote me."

She was art's loss and literature's gain as she wanted to be an illustrator and still uses a drawing board balanced on her knee for a writing desk.

Her ancestry is English, Irish and French with royalists predominating and at least one of them guillotined during the French Revolution. Mazo de la Roche is of Toronto stock and her novels reflect early experiences on a quiet stock-and-fruit farm on the shores of Lake Ontario and Whiteoaks is something of a reincarnation of lonely childhood without brothers and sisters.

Is tall, willowy, has nut-brown hair, charm and a lot of editors in chains. She likes country life and folks, horses and dogs, Toronto in winter and children. She adopted two.

Diallike telephones, department stores, elevators and comic strips. Loathes flag-wavers, lecturers and "helpful hinters." Has only one strong conviction. It is wrong to make people unhappy.

Literary opinion is divided as to whether her Whiteoaks series will seriously rival Tennyson's Brook.

## Genealogical Entertainment Well Received

A fair sized crowd was present at the Raymond Second Ward Saturday evening last for the evening of entertainment sponsored and staged by the Ward Genealogical Committee, under the direction of Mrs. Oliver McLean. Two dramatic sketches were presented, both well staged, and the parts well supported. These were interspersed with musical numbers, so that the audience had no waits at all during the changing of scenery, etc.

After the entertainment the floor was cleared, and dancing was enjoyed until about 11 p.m. when the crowd decided it was enough and went home. The funds thus raised will be used to further the work of the Committee in the ward.

### NEWS NOTES

**ANNUAL KIDDIES FREE MATINEE TUESDAY NEXT AT 2:15 JANE WITHERS IN "GINGER".**

Bruce Galbraith was home from the B.Y.U. for Christmas holidays, and will return next week to be there for the beginning of work in the New Year.

Despite the cold south-east wind Christmas Eve, the weather on Christmas Day was quite pleasant and not too cold.

DeLoss Lund's car took fire on the road near Welling Monday night last. With a heavy kelly blanket the blaze was soon extinguished, and the damage confined to the wiring and cables.

Mr. and Mrs. F. W. Leavitt, Mr. and Mrs. Dick O'Brien and Mr. and Mrs. Ross Salmon, all of Picture Butte spent Christmas with relatives in Raymond.

"CAPPY RICKS" a roaring three act comedy will be presented in the Raymond 2nd Ward Hall Saturday, Jan. 4th. See the hand bills for full particulars.

Mr. and Mrs. H. C. Christensen and Leona and children, had Christmas dinner in Lethbridge with Mr. and Mrs. Clarence Hansen.

Mr. and Mrs. Kimball Anderson and family of Tyndal's Lake spent Christmas in Raymond with Mr. and Mrs. S. I. May and family.

Shelby was a bee-hive of interest over the week-end following the shooting there on Friday last of the Chief of Police, Undersheriff and one gunman in a bank hold-up. Two of the three bandits escaped, and so far have not been apprehended.

36 people were killed—Xmas eve in a train wreck in Germany when the Berlin-Basel express sideswiped a local train at Cross Hagen. The flying express hit the local and shoved two coaches off into the frozen river, the bitter cold making rescue work very difficult.

Nicaragua leaped into the limelight the day after Christmas when quintuplets 2 boys and 3 girls were born to Sator and Senora Timoteo Laines, residents of the village of Sabana Grande. All five children were reported as doing very well, although the infant death rate is high in Nicaragua.

## Christmas Week One Of Many Festivities

The Christmas season in Raymond was a jolly one, and so far as we can learn each and all had a very enjoyable time, generally too much to eat a nice lot of beautiful gifts, and everything to make the heart light and gay.

Sunday morning in both wards, Xmas programs were held, where in song, story and sermon the life and labors of the Savior were retold to the congregations, and as usual despite the fact that the story has been told year after year for centuries, everyone received a new thrill from the repetition.

In the evening, under the supervision of the Bishops and the Genealogical Committees a program was held, the themes centering around firstly the life and labors of the Savior,

and also of Joseph Smith, the Prophet. Good musical numbers appropriate to the occasion added to the enjoyment of both programs.

Friday afternoon the Primary children of both wards were given a treat. Monday evening the Scouts, Aaronic Priesthood and Bee-Hive Girls of the Second Ward had their Christmas party and dance, and throughout the week the various organizations all entertained the kiddies with parties and refreshments.

Dances were held in both the Opera House and Second Ward hall and good crowds were present at all of them to enjoy the Christmas season. All in all, and without going into too much detail the season has been festive and very enjoyable and everyone is happier, and we hope better for it.

## News Notes

Mr. and Mrs. Lyman Jacobs spent the Christmas holidays in Cardston with relatives.

Weather forecasters state that it is going to become milder. These warm winters are spoiling us. We yell now if the mercury stays down to freezing for 24 hours.

Anthony Eden has been appointed Foreign Secretary in Britain to succeed Hon. Samuel Hoare who resigned following the wave of censure of the peace proposals of Italy and Ethiopia.

Premier Abbott has asked that people "stop their confounded gambling, and give him two years" to put his Social Credit plans into action. We believe that the advice to stop the gambling is good and timely. The majority elected him and owe it to him and his party to give them time.

The first Ward held their Budget Dance in the Opera House Saturday night last. Bob Nelson and his Four Aces furnished the music, and from what we hear the musicians were on their toes, and certainly played wonderful music.

Mrs. Elizabeth Tifford, mother of five children, was hanged at Woodstock Ont., Tuesday morning paying the penalty for murdering her husband by poison. She is the eighth woman to be hanged since Confederation, and the first one in Ontario in sixty-two years.

I believe our climate is changing.

Think so?

Our winters seem to be getting warmer.

Well, the women wouldn't wear enough clothes. The climate had to change. The women would not.

## Revise Car License Year

Next month the 1935 motor licenses will expire and owners will be called upon to take out their renewals, providing that they intend to operate their cars for all of next year.

The fact that licenses were reduced this year does not alter the demand, however, that the license year should be changed to be in line with what has been advocated by the Alberta Motor Association.

The A.M.A. has contended that the license year should be changed to run from April 1, instead of January 1. In past years the provincial government has claimed that it would be losing a large amount of revenue at a time of the year when this is badly needed as there is little money coming in from other sources in that period.

The A.M.A. has taken the stand that in the interest of all parties a license year should be changed. It is felt wrong to have the license coincide with the calendar year.

Under the present regulations a 1936 license would be available on or before the 31st day of March which would bring the revenue in during the present fiscal year.

Furthermore no motor vehicle would be permitted to operate legally after March 31 unless it had 1936 number plates.

A substantial gain to the treasury through having thousands of cars operated between January 1 and March 31. Under the present registration system many of these cars remain in cold storage until March 31, with the result that the province loses in license and gas tax revenue.

All business and industries also would reap a substantial gain through a greater number of cars being in use during the first three months of the year.

The employment situation also would be improved, as there would be a greater amount of work during the first three months, when many men might otherwise be idle.

There are no disadvantages, it is contended in making such a change. If 1935 licenses were allowed to run until March 31 next, the provincial treasury would not be losing any money because the revenue would be taken in in the fiscal year for which it has been estimated.

Farmers should also be in favor of the plan it is believed. For those who wish to take out licenses for a number of months instead of the whole year, there should be part year licenses to accommodate them. This would meet the problem of those who are able to use their cars for only a certain period of the year, owing to weather or road conditions.—Voice of Motordom.

## Salmon Home Is Destroyed By Fire

### Montana Ex-Convict Kills Three Men At Butte; Two Of Them Are Police Officers

Butte, Mont., Dec. 26—Grim posses searched western Montana hills today for a "cop killer" identified as Harry Knight, Kingston, Mont., ex-convict, wanted for killing three men—two of them peace officers.

Police Tom O'Neill, 37 was killed in a Christmas shooting affray at a boarding house here.

His companion officer, James Mooney, wounded in both arms and the right shoulder, said the killer was Knight.

The officers were called to the place by residents who reported Knight shot Frank Walsh 21, and Mrs. Florence Benevise, after being repulsed in efforts to enter the apartment of Mrs. Benevise's sister Jean Miller. Walsh died early today.—Leth. Herald.

### YOUNG'S BIG FAMILY

A group of young missionaries of the Mormons from Salt Lake City, recently sent to Europe, included Brigham Young the "fifth." The original Brigham Young had 19 wives. His son, Brigham Young Jr., had eight wives. The third Brigham Young had only one wife, but there were so many Youngs the third Brigham took the middle name of Spencer to avoid confusion of names. Brigham Spencer Young, grandfather of Brigham V. still lives in Salt Lake City, aged 77. It is estimated there are now 15,000 descendants of the original Brigham Young.

NOTE: Brigham Young V. referred in the above piece, taking Farmer, is the son of Mr. and Mrs. B. S. Young, formerly of Raymond, the mother being Edna, daughter of C. H. Brewerton and sister of the Brewerton boys.

### CHILDREN VICTIMS OF CHRISTMAS FIRE

Moose Jaw, Sask., Dec. 25—Two children were dead today, victims of a Christmas night fire which destroyed their farm home near Choiceland, Sask. Both were rescued from the burning home but had suffered fatal burns. One-year-old Teddy Armour died en route to hospital and his two-year-old sister, Mureline passed away shortly after being admitted to hospital at Nipawin.—Leth. Herald.

### NEWS NOTES

Stirling and the local High School are playing Basketball tonight in the High School Gym.

**ANNUAL KIDDIES FREE MATINEE TUESDAY NEXT AT 2:15 JANE WITHERS IN "GINGER".**

Thomas D. Schall, blind senator from Minnesota died Saturday following an automobile accident in Washington when he was struck by a car.

The terminal well in the Del Bonita field has rated a commercial producer of crude oil, and this raises interest in this new field.

Last Saturday afternoon, the home of Mr. and Mrs. Salmon, who lived just south of the canal, caught fire and burned to the ground. The alarm was turned in, and the fire engine soon on the ground, but the dry frame building was too far gone when the brigade arrived to be able to save anything.

Mr. Salmon started shaving and when he commenced moving round, he told his wife he could smell smoke. Mrs. Salmon opened the door into the other room to be greeted by a belch of flame from the fire which was raging madly. The elderly couple had to get out with only the clothes they stood up in, and then watch their home and all their belongings be burned.

The sympathy of the community goes out to them in their loss.

### MEMBERS SALARY IN FEDERAL HOUSE

Canadians pay for representative government.

For instance, every person elected to parliament recently can look forward to a salary—termed seasonal indemnity—of \$3,600 per year.

It was \$4,000 at one time but depression brought about a 10 per cent cut.

At that rate, 16 members from Alberta in the next five years will draw a total of \$283,000 and Hon. R. B. Bennett, as Opposition leader will draw \$50,000.

As well, members get certain privileges. Two of these are the right of free transportation on any Canadian railway and free mailing privileges when they are in attendance at a session of parliament. Transportation privileges do not include berths and meals.

At Ottawa it is the custom to place two members to one office. Seventy-five stenographers are available for the correspondence work of the 245 members of the house.

When a member becomes a cabinet minister he gets, additionally to his seasonal indemnity of \$3,600, a salary of \$9,000. One time it was \$10,000 but it was cut 10 per cent, too.

Ministers also get \$2,000 minus 10 per cent for motor transportation and chauffeur. At one time the public treasury bore this expense without a limit, but in 1930 the Bennett government placed a deadline of \$2,000 upon each minister's expense in this regard. Of course, he may spend more if he wishes, but it must come out of his own pocket.

The prime minister gets \$15,000; the leader of the opposition \$10,000.

### MURRAY RESIGNS DIRECT- ORSHIPS IN GRAIN COMPANIES

Wheat Board Head Is Granted Leave of Absence From Alberta Pacific Grain

Following a meeting of Directors of the Alberta Pacific Company Limited, held in Winnipeg today, it was announced that J. R. Murray general manager of the Company, had been granted leave of absence from the Company in order to enable him to devote his entire time to his duties as Chairman of the Canadian Wheat Board.

Mr. Murray subsequently announced that he had also severed his connection with various other grain companies and companies having any dealing in cereals.

### HAPPY NEW YEAR

We extend to our readers the compliments of the season and best wishes for a happy and prosperous New Year.

When we greet each Happy New Year, just what do we mean? No doubt many of us do it as a matter of form, but what really do we wish, a person when we say "Happy New

Year? Have you ever asked your self this question.

Individually, would you like a year of untroubled prosperity, when you could gratify your every wish? Would you like a year of freedom from work and rutting, when you could do with each day and hour just what you pleased and nothing more? Or would you like a year full of activity, service to fellowman, a certain amount of trials and troubles to broaden and the peace of mind at the end of each day which comes with the feeling of a day's effort and accomplishment?

After all, the only people who are things are the men who rise higher today on the disappointments and failures of yesterday. In saying "Happy New Year" we trust you will labor each day to make it the best day you have ever lived. We would not ask for ourselves nor for you

prosperity nor material blessings, beyond that which you can enjoy and use wisely. We would not ask that all the bitter experiences of life be taken out of our way, for it is on these things we grow and rise to greater heights. We wish that the labor of the year may be profitable, that you will find time in the hurry and scurry of life to render service and kindness to your fellowman, for after all if we lose the sweetness of service and fellow interest, life becomes barren and a mockery.

HAPPY NEW YEAR Indeed.

REPORT? REPORTS?

In the ends of offices at this time of year are being compiled the annual and statistical reports of activities of individuals, corporations, companies, etc., to find out what has taken place and whether activities show a profit or loss. Generally speaking this is called stock-taking in stores, and statements of one name and another in companies and so on.

It should also be a season of stock-taking individually. A good report is a nice thing and worth striving for, but the question is, is it a true report. To make a good record on a roll book is one thing; to live a good record in one's everyday life is quite another. The record, whether written or not, of being an honest man or woman, of keeping your word as far as is possible, and of trying to play the game of life is a record worth having and one which we may attain to if we are willing to pay the price. After all the written records are what people think we are doing. The records we live are what we KNOW we are living and doing.

Everyone appreciates the person who keeps appointments, who fulfills his or her obligations the best possible and who banishes hypocrisy and pretence from their life as much as possible.

Viewed from this standpoint are you satisfied with your record of the past year and if not as the architect and carpenter of this report are you willing to make it better during the next year.

Whether or not you get a record on man made reports for all you do is of small consequence in comparison to the record we are writing each day in the daily regarding our activities.

ies and these records are the ones we will have to face, and the ones we will find difficulty in balancing the good with the bad. They are the reports that count. Entering a New Year is a good time to think about these everlasting records and reports

Canada has sold 30,000,000 bushels of wheat for export since last Friday, according to news dispatches. It is hoped that the upturn in the markets may mean getting the Canadian wheat surplus down to normal carry over before the end of the present fiscal year, July 31st, next.

### AWAY FROM RESTRICTIONS

The Canadian-American trade treaty has met with a very mixed reception from the interests immediately involved. As a closer examination of its contents has revealed its nature, most of the first cries of alarm have subsided. At the same time a sigh of satisfaction has gone up from those who are watching anxiously for a sign as to the genuineness of Mr. Roosevelt's support of his Secretary of State.

The treaty has more importance than even the hundreds of millions of dollars of prospective trade benefits that it involves would indicate. Its significance lies in the crucial turn it may give to American policy at this period. The President has shown some reluctance to

antagonize special interests who ask the Government for tariff protection or largess. If his political scouts report to him—as it seems probable that they will—a highly favorable reaction to the Canadian trade treaty he may be emboldened to take the direction toward recovery offered by Secretary Hull rather than by the "restrictionists." The success of this change of front will depend upon support by the business community itself and by the nation at large for a national program as opposed to one of special interests. If business leadership desires to be inconsistent in opposing control of production, it would do well to back with enthusiasm Secretary Hull's policy of gradual taking restrictions from the trade.—Christian Science Monitor.

## LIBERTY MAGAZINE'S CANADIAN HALL OF FAME No. 19

"All right gentlemen," says Major General J. H. MacBrien, chief of the Royal Canadian Mounted Police, "they were last seen east of the Arctic River; so and get your men!"

The urge to get your man is universally attached to the H. C. M. P. and is a throw-back to the war time phrase used by the chief commander when he used to lead his men. Now he has a desk in a shabby little office over a department store in Ottawa but soon he will have headquarters in a new \$1,500,000 building. When he moves to his new quarters he will take with him a map with little red dots. These dots mark the farthest outposts of the R. C. M. P., one of them within eleven degrees of the North Pole.

He has long been immediately after his appointment by Premier Bennett he promulgated the dictum that every mountie must be able to ride. He rounded up the desk-warriors sent them to Regina to suffer equitation and eat their meals standing up.

Today his men have shut down the rum runners in the Maritimes and the dope peddlers in the central provinces; they have checked the drug smugglers on the Pacific coast and the fur traders in the Northwest.

After General MacBrien was born in Port Perry, Ontario; has an Irish ancestry, a commanding officer and six athletic children.

## WEEKLY LETTER

## NEW YEAR'S GREETINGS

This, the beginning of a new year, is the time when many farmers are won't to take stock. The end of the crop year is long past; the results good or bad, are all known; and it is too early to develop active plans for the new crop season. Aside from the regular winter routine there is not apt to be much urgent work in view. The days are at their shortest and the long evenings invite meditation and thought. Along what lines are his thoughts most likely to run? Each individual farmer of Southern Alberta may consider his present lot hard. To be sure it has not been too rosy for the past few years, but for that matter, neither has the lot of the business man or wage earner of the city been any too bright. On the whole, one wonders whether the farmer has been by and large so very much worse off than his city friends. Whatever the answer to this query may be, it is safe to ven-

ture the guess that town folk and farmers would scarcely agree upon it.

Each farmer has, of course, had to meet his special difficulties, and let us hope his special achievements also, during the past year; but let us view for a moment the general situation of the farmers in southern Alberta compared with the farmers generally in the three prairie provinces.

He has been spared the scourge of rust which so ruthlessly ruined the prospects of thousands upon thousands of farmers in southern Saskatchewan and Manitoba. Fields of wheat promising 30 to 40, or even 50 bushels were, in a few days in midsummer, blighted to such an extent that in many cases they were not worth cutting.

He has been spared the scourge of summer frost, which was so general in many of the northern parts of the three provinces that the problem of obtaining even sufficient seed for next spring's plantings of oats and barley is considered

most acute.

He has been spared these two major calamities, and the grain he harvested was of the very highest grade even if, in some cases, his yields were not all that he could have desired.

In taking stock it would seem that the farmer of Southern Alberta should recognize the fact that Nature has not been too unkind to him during the summer of 1935. He should remember that the price of wheat is better than he was getting a year ago; that the price of pork is well maintained; that lambs are selling higher than they were a year ago; that the price of beef is rising; that horses are beginning to have a respectable value again; that his wife is getting at last a fair price for the turkeys she so labouriously cherished and raised last spring.

So, taking everything into consideration, is it not fair to say that the farmer of Southern Alberta has reason to start the New Year of 1936 fortified with just a little greater hope than has been his wont in the recent past? We confidently believe that this is the case.

In conclusion may I take this opportunity of expressing on behalf of the staff of the Lethbridge Experimental Station our sincere hope that the New Year may prove to be a prosperous and most satisfactory one to all our farmer friends.

W. H. Fairfield,  
Superintendent.

## AIN'T IT THE TRUTH? )

An editorial in a California paper says that after fifteen years in the business, a newspaperman becomes reconciled to the following facts: 1st. He will always be regarded as some sort of a freak. 2nd. That the favors he does will usually go unnoticed, but his mistakes never. 3rd. That when he gets in a crowd some one will say jocularly, "Don't talk in front of so-and-so he'll put it in the paper." 4th. That once a week some one will remark that "newspaper work must be fascinating."—Gleichen Call.

## POULTRY TESTING

The blood testing and culling of flocks under the Hatchery Regulations has been fairly well completed for this season. Applications for this service must be received in the office of the Poultry Branch, Edmonton, by December 31st. No applications will be accepted after this date. This year approximately 100,000 birds will be tested which will amply supply the hatcheries of this Province.

## HEALTH

A HEALTH SERVICE OF  
THE CANADIAN MEDICAL  
ASSOCIATION AND LIFE  
INSURANCE COMPANIES  
IN CANADA

### CONSTIPATION

As you read the advertisement,  
listen to the radio and  
read the complaints of your  
friends you become aware of  
the number of people who are  
troubled by constipation and the  
vast quantities of different lax-  
atives which used in an effort  
to correct or cure the complaint.

Just as food and air are re-  
quired by the body to sustain  
it in health and strength, so  
must it get rid of its waste pro-  
ducts. General experience indi-  
cates that regular daily elimina-  
tion is a desirable habit in that  
it frees the body of its waste  
products without undue delay.

We are largely creatures of  
habit. We enjoy better health  
when we have our meals at reg-  
ular hours. We enjoy certain  
foods at one meal which we  
would not think of eating at an-  
other. We do not eat soup or  
pie for breakfast; there are so-  
called "breakfast foods" which  
stay on the pantry shelves from  
one breakfast to another.

Regular elimination is more  
a matter of habit than any-  
thing else. The bowel which  
has been trained to empty itself at  
the same time every day will  
keep on doing so. Such regular-  
ity is discouraged by failure to  
heed promptly the call of nature;  
it is encouraged by a reg-  
ular visit to the toilet at exact-  
ly the same time every day re-  
gardless of any urge to empty  
the bowel.

Laxatives may empty the  
bowel, but laxatives will never  
overcome constipation. Indeed  
they encourage constipation be-  
cause they train the bowel to  
depend upon the stimulation by  
a drug instead of having a nor-  
mal evacuation. The way in  
which people turn from one lax-  
ative to another shows how lax-  
atives gradually lose their ef-  
fectiveness as the bowel becom-  
es accustomed to the particular  
drug in the laxative.

Next to regularity of toilet  
habit as a means to secure reg-

### NEWS NOTES

Coming at the Capital next  
week Wm. Powell in "REN-  
DEZVOUS"

ANNUAL KIDDIES FREE  
MATINEE TUESDAY NEXT  
AT 2:15 JANE WITHERS IN  
"GINGER".

Mr. and Mrs. Mirza Pack are  
home for the Christmas holi-  
days. Mirza is graduating from  
the University of Edmonton  
this year, having finished his  
four year course.

John W. Goodman, commer-  
cial traveller of Bismarck, N. D.  
46, was found frozen to death  
near his car on Christmas Day.  
He was on his way to Sheldon,  
N.D., to spend Xmas with his  
mother.

The winner of the \$50.00 was  
not present at the Capitol Theat-  
re Thursday night when the  
number was drawn. In the next  
draw however Mrs. Jack Harvey  
won \$20.00 and Mrs. J. E. Earl  
\$10.00, the other \$20.00 was  
not claimed and will form the  
nest egg for a \$30.00 draw next  
week.

A young hurricane swept ac-  
ross the country Tuesday night  
and in the early hours of Wed-  
nesday morning. The only thing  
that kept roads from being com-  
pletely blocked was the fact that  
there was not enough snow. All  
loose snow was sifted in thru  
door cracks and window casings  
along with nice sprinkling of  
dirt.

Regular elimination come diet and  
exercise. Many people are help-  
ed by using more water. A glass  
or two upon rising and between  
meals will help to keep the bow-  
el in good condition. It is im-  
portant to eat a lot of indigestible  
roughage but most people do  
require a reasonable amount of  
bulk in the diet. This is best  
secured by eating freely of fruits  
and leafy vegetables which con-  
tain a fair amount of fibre.

The abdominal muscles must  
be used if they are to be kept  
strong. This may be accom-  
plished through your work or  
else such exercises as call these  
particular muscles into play.  
Defeat constipation with habit,  
diet and exercise. It can be  
done if you persist.

Questions concerning health,  
addressed to the Canadian Med-  
ical Association, 184 College St.  
Toronto, will be answered per-  
sonally by letter.

## The Season's Greetings

In wishing you a very

**Happy New Year**

We wish to acknowledge our Apprecia-  
tion of Your Patronage and Goodwill.

**Brewerton's Limited**

### Trustees Convention

D. L. Galbraith is home again  
from the Lethbridge Hospital,  
and is feeling considerably im-  
proved after a tonsil operation,  
and one or two other treat-  
ments. We wish him a speedy  
and complete recovery.

A new arrangement in Relief  
allowments means 75% paid by  
the Dominion and Provincial  
Governments and 25% by mun-  
icipalities. Heretofore Alberta  
has received \$100,000 per month  
from the Dominion Treasury  
for relief. Under the new arrange-  
ment she will get \$175,000.  
No increase in individual allow-  
ances will be made, but it is  
hoped to assist the municipali-  
ties in cases which heretofore  
they have had to care for alone.

At the Trustees Convention  
in Lethbridge last week, attend-  
ed by the local School Board  
practically 100%, the question  
of larger units in school admin-  
istration with a view to great-  
er efficiency and more variety  
in the courses taught received  
a great deal of attention, and  
local trustees are looking for a  
change right away in the set-up  
of School Boards and districts.  
We may have something from  
local trustees on this matter  
before long. Solon Low, local M.  
P.P., was present and a speak-  
er at the Convention, and he  
looks for legislation in the com-  
ing session regarding this  
matter.

### NEWS NOTES

"CAPPY RICKS" a roaring  
three act comedy will be present  
ed in the Raymond 2nd Ward  
Hall Saturday, Jan. 4th. See the  
hand bills for full particulars.

Heavy fighting occurred be-  
tween Italian soldiers and the  
forces of Emperor Haile Sel-  
assie of Ethiopia on Tuesday, re-  
ports being that the forces of  
Il Duce were driven back with  
heavy losses.

Plan now to attend PREVIEW  
at the Capitol New Years Eve  
at 11:15 See Joe E. Brown in  
his biggest show. We can pos-  
itively guarantee you deluxe  
entertainment.

The Capitol Theatre was  
crowded for both shows Xmas  
night when "The Dark Angel"  
starring Frederic March, Merle  
Oberon and all star east was  
shown. It was a gripping drama  
from start to finish, and every  
one thoroughly enjoyed it.

ROBOT LETTER SORTER  
SPEEDS BRITISH MAIL

A letter-sorting machine cap-  
able of handling 24,000 letters  
an hour has been installed in the  
chief letter-sorting office here.  
This machine, which has  
been modified from one already  
in use in the Netherlands, is  
70 feet long, 12 feet wide and  
7 feet high. The sorters of  
which 10 can work together,  
are seated above the machine,  
each with a keyboard like that  
of a typewriter in front of him.  
The key boards cover a range  
of 225 numbers and a two-unit  
machine can thus deal with the  
630 boxes necessary for Bright-  
on's letters.

The letters already postmark-  
ed came up to a sorter on a  
slowly moving conveyor from  
which he lifts them one by  
one, drops them into a slot and  
taps out the correct code num-  
ber. The letter drops onto a  
carrier which delivers it to its  
correct box.

BEAUTY'S SPOTLIGHT

I do not believe there is any  
other feature which our pride or  
sensitiveness centres on quick-  
er than the nose. And, because  
of its position, the eyes of those  
we meet are also apt to focus  
first on this feature.

For this reason, red nose,  
shiny nose or nose with large  
pore, are a perfect bane to  
those who possess them. How-  
ever something very definite  
can be done to correct these  
three conditions.

A red nose, of course, in-  
dicates either poor circulation or  
poor digestion. If your digestion  
is poor then try exercising  
several times a day to speed up  
circulation. Take long walks in  
the open air, play basketball or  
basket ball; all of these are  
excellent for the circulation. If  
you are troubled with indiges-  
tion the logical thing is to see  
your physician, but try also to  
regulate your diet, eating at  
the same time each day, getting  
plenty of rest and fresh air.

Now, a shiny nose to which  
powder cakes, is usually an oil-  
one. If you wash the nose once  
a day with a granular washing  
preparation and use a paste of  
cream for cleansing, you will  
help check this excess oil. Oil-  
iness also tends to enlarge the  
pores and attract dirt to the  
face which causes blemishes  
and blackheads. This is why the  
granular washing, which keeps  
the skin immaculately clean is  
so necessary.

The nose is said to be a bar-  
ometer of the nerves, digestion  
and circulation. Therefore, its  
signals should not be disregard-  
ed, or the condition will only  
become worse.

NEXT Nails.

Bloor St. W. Toronto, Ontario

**EFFECT OF PHOSPHATE  
FERTILIZER ON GRADE  
OF WHEAT**

(Experimental Farms Note)

In spite of consistent increas-  
ed yields from the use of phos-  
phate fertilizers in certain sec-  
tions of Western Canada, a criti-  
cism has been made that their  
use resulted in a lowering of  
the market grade of grain by  
reducing the size of the kernels.

To determine the truth of  
this complaint, the point is  
being studied at the Dominion  
Experimental Station, Scott,  
Saskatchewan. Samples have been  
taken from plots where differ-  
ent rates of phosphates fertil-  
izer were applied on summerfall-  
ow. After determining the  
weight per bushel of the thresh-  
ed sample, the kernels were  
passed through a set of sieves  
which gave the percentage of  
kernels in five different sizes.  
The work on this question to  
date gives indications that the  
effect on grade depends on the  
kind of growing season.

In an average season, the  
yield, weight per bushel and size  
of kernels were increased when  
a moderate rate of phosphate  
fertilizer was drilled in with the  
seed. In a season of low yields  
the weight per bushel was de-  
creased over two pounds per  
bushel, approximately sixty per  
cent of the kernels were in the  
smallest sizes, but the yield per  
acre was increased four and a  
half bushels. In years of late  
summer frosts such as 1928 and  
1935, quite a percentage of the  
unfertilized crops were serious-  
ly damaged with yield and grade  
materially lowered, while fertil-  
ized crops produced higher  
yields and grades, thus greatly  
increasing their market value.

The general conclusion is that  
in areas where phosphate fer-  
tilizer definitely increases yields,  
only in very dry seasons will the  
grade be adversely affected.  
This suggests that in districts  
where fertilizers give beneficial  
results a light rate of phos-  
phate be used every year in-  
stead of trying to guess the sea-  
sons which might promise max-  
imum results from its use.

F. M. McIsaac,  
Dom. Experimental Station,  
Scott, Sask.

A stranded actor went into  
a sordid hash house in New  
York for a cheap meal. In the  
waiter he was horrified to re-  
cognize a colleague who had  
played with him in happier  
days.

"Great Scott!" he gasped.  
"You a waiter in this place?"  
"Yes, but I don't eat here,"  
replied the other with some  
dignity.

**SENTENCE STIMULANTS**

(Maywood Syndicate)

A small piece of work well done  
is a victory of the better self  
over sloth, disorder and slipshod  
diness. Enjoy your daily vic-  
tories.

Service is that something  
plus which the other fellow had  
not bargained for.

He who brings another up in-  
to his laughing mood makes  
him glad that two people were  
born.

If I can't give gifts with a  
gold value I may give a helpful  
thought and that may have  
more happiness value when it  
gets to working.

A pessimist is one who harps  
on the one big stomach ache he  
had ten years ago and never  
thinks of the thousand thrills  
he has had since.

**NEWS NOTES**

Mrs. Paul Redd is in the  
Lethbridge hospital suffering  
from an attack of heart trouble.

It is reported that Col. Lind-  
bergh will buy a home in  
England and settle down there  
where according to his own  
statement, he can have "some  
peace and quiet."

Mr. and Mrs. J. Ross Hum-  
phrey and family were moving  
to Picture Butte on Thursday.  
where we understand Ross is  
to be installed as Superintendent  
of the new Factory. The  
Sugar Factory truck was doing  
the moving.

A good ticket sale is reported  
for "Cappy Ricks" which is  
being presented by the Stake  
M.I.A. in the Second Ward Hall  
tomorrow (Saturday) night.

S. B. Card has his car home  
again after an accident which  
required some body repairs in  
the garage at Lethbridge.

The Dominion Parliament will  
open on Feb. 6, and will be op-  
ened by the new Governor-Gen-  
eral, Lord Tweedsmuir. Hon. J.  
Blackmore, leader of the  
Social Credit group, has called  
a caucus of the members of his  
group for Jan. 8, in Edmonton  
when the programme for the  
coming session will be planned  
and worked on.
